
(a) K_4 modules
(b) dimer modules
(c) P_4 modules
$\log_{10}$ of the bound on $S(s,t)$
number of modules k
number of modules k
number of modules k
exact S
floor $\sum_i \|P_t e_s\| \|P_i e_t\|$
Combes–Thomas bound
bridge bound
walk-sum bound
chain bound
contour certificate
